STOP-AGING peptide essence which customer rating is close to perfect point!

REAL REVIEW from the customers who used STOP-AGING peptide essence

REAL REVIEW

rachel****

Peptide essence is highly recommended. Even if something bloom the review after using the essence for the last 2 weeks. Because pore (pe-getu-mul, skin looks so elastic). Dry skin is filled with moisture I think it's because of peptide and hyaluronic acid. Because it's so bouncy I've been more than my some tone look brighter. I've recommended the essence to people around me and I think it's the voices can be applied on the skin. So

yolo****

Because the essence is effective for anti-wrinkling effect not only nourishes fold but all wrinkles, I think it does the most thing to do is the to get fitter cosmetics I'll keep using and recommend to all the customers. A delicate one is good. The essence makes skin radiant. Because the essence is filled on the skin, it's also the best dome elasticity form my skin.

lily****

I never thought I'd find a bundle that moistness by applying essence and cream. Because I'm a person who has a lot of sensitive skin, I'm always afraid of using the essence, but I'm using it with worry. But, I felt it's like applying cream on the face.

soopee****

How much it was After applying the essence on my face, I felt that my skin was getting softer. Also, my skin was moisturized in the deep skin.I felt that my skin texture was so smooth. When I touched my skin, I could feel that elasticity of skin was improved.

手遅れになる前に **STOP!**

Technology 1

The key which stops time of skin.

7 kinds of peptides.

[Peptide]

Peptide is the material composed of 2 - 50 amino acides which is the basic component unit of protein. It's been known that it's effective to improve skin elasticity.

W. SKIN LABORATORY STOP-AGING Peptide essence contains 7 kinds of peptides which are selected as the best among peptides in the world.

Acetyl Hexapeptide-8

Skin elasticity

It's a very small molecule. It's absorbed in the skin fast. It helps to improve loose skin elasticity and anti-wrinkling. Because it's a hypodiergenic, nontoxic, and safe material. It rarely has side effects.

Skin elasticity 1-2

Hexapeptide-9

Anti-wrinkling effect

It's mainly used for making anti-wrinkling cosmetic products. It's the ingredients which is excellent at helping to improve fine creases on the skin.

Skin elasticity 1-2

"The shortcut of being a well-rounded person"

Copper Tripeptide-1

Blemish relief

It prevents skin aging by removing damaged cells rot recycling skin. Also, it makes skin moist by filling skin with moisture.

Skin elasticity / Whitening 1-2

Tripeptide-1

Skin whitening

It promotes synthesis of procollagen which is much better to lighten skin than Vitamin C or retinol.

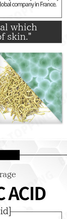
Skin elasticity / Whitening 1-2

"It overcame retinol."

Palmitoyl Pentapeptide-4

Anti-wrinkling

It's effective to improve the number of wrinkles and depth of wrinkles. It's the key material which improves skin intensity and flexibility.



Skin elasticity 1-2

"The sheild which protects skin against wrinkles."

Palmitoyl Tripeptide-1

Skin improvement

It helps to improve skin texture by enhancing collagen generation ability which skin originally has. It also helps to improve wrinkles on the skin by reducing dryness of skin and protecting skin.

Skin elasticity 1-2

"Nona is better than gold."

NonaPeptide-1

Pigmentation prevention.

It's the extremely expensive ingredient which price is 200 times higher than gold. It prevents pigmentation on the skin and helps to improve dull and dark skin.

Skin whitening 1-2

Technology 2

Skin voluming effect from the material which developed by a company founded in 60 years ago France.

VOLUFILINE

[VOLUFILINE™]

It's the material made by mixing sarsaxapogenin extracted from the roots of Asian botanical Anemarrhena asphodicoidese and Hydrogenated Polyisobutene.

W. SKIN LABORATORY uses VOLUFILINE™ only made by Scompany which is the global company in France.

"The queen of maerial which increases volume of skin."

VOLUFILINE

Increase of skin volume.

Because it combine the material which activates fat, it gives volueing effect on the area where you want. It relieves skin aging.

Skin elasticity 1-2

Technology 3

Skin moisture storage

HYALURONIC ACID

[Hyaluronic Acid]

Hyaluronic acid is the material which has good ability to store moisture in the skin to drain about 1000 times heavier weight of moisture.

Due to its special ability, it's called as skin moisture storage.

The reason why skin gets dry when people get old.

Hyaluronic acid is moisture storage in the thick skin. Because the number of hyaluronic acid gets decreased drastically in 40s, moisture ratio in the body is decreased to 50% comparing to skin in 20s. To prevent skin dryness, it's required to absorb hyaluronic acid in the skin.

"Moisture storage which stop the time of skin."

Hyaluronic Acid

moisture supply

Because hyaluronic acid stores moisture in the skin, it not only supplies moisture to skin but has moisturizing effect. Also, it helps to maintain skin elasticity by forming moisture protective layer.

Technology 4

Whitening and anti-wrinkling materials obtained certificate by MFDS.

[Niacinamided] [Adenosine]

W. SKIN LABORATORY STOP-AGING Peptide essence

Functionality test passed!

"The secret key to whiten skin and to improve wrinkles on the skin."

Niacinamide

Skin whitening

It's the whitening material which it notified by MFDS. It helps to whiten skin by brightening pigmented skin caused by melanin pigments.

Adenosine

Anti-wrinkling

It's the anti-wrinkling material which it notified by MFDS. It helps to improve wrinkled and loose skin by enhancing skin elasticity and recovery ability.

W. SKIN LABORATORY STOP-AGING Peptide essence **product info**

Product exterior

Because Volufiline™ is oxidated when it is exposed to air, the essence is in the airless container.

Microbubble capsule

Microbubble capsules pop and penetrate moist into the skin.

"Check fine bubble capsules in the essence by yourself."

Refreshing touch

It offers refreshing feeling without stickiness and helps to moisturize skin.

How to use

01 Take some of essence and spread it on the face.

02 Wait until fine bubble capsules are generated.

03 Make the bubble capsules absorbed by gently dabbing face.

TIP

It's much better to care not only facebut neck, back of hands, etc which get wrinkles a lot.
